

Addendum 2

The following questions have been submitted in regard to the PSS request for qualifications. No modifications have been made from the vendor's original submission request.

1. Should pricing be submitted with the proposal?
No, it is not a requirement
2. Number of employees within the PD
104
3. Number of sworn officers within the PD
70
4. Number of mobile units
56
5. Number of officers needing to be trained on mobile
112
6. Number of employees needing to be trained for CAD
15
7. With reference to CAD, requirement K: Does the City have specific third-party systems with which the CAD needs to integrate which are not already listed in this RFP?
The only mandatory application CAD must interface with is Mobile.
8. With reference to RMS, requirement K: Does the City anticipate the conversion of statistical reports (such as a daily arrest report) or the conversion of other records called reports (such as case reports)?
Yes, all data contained in the system will need to be converted
9. With reference to Mobile (In-Car), requirement I: Would the City provide the vendor and software name for the LPR system it would like to integrate with Mobile?
Vigilant Solutions
10. With reference to Mobile (In-Car), requirement L: Would the City clarify which specific state network(s) the message switch should route data between?
State of Georgia
11. Does the City want the software to interface with NCIC?
Yes
12. Does the City need to have the current VisionAIR data for CAD and RMS converted to the new system?
Yes, this is a mandatory requirement
